

# HOOKUP DIAGRAMS

*This illustrates how to use the SRM150 as a personal monitor. Mount the SRM150 on a microphone stand using the Mic Stand Mounting Bracket included with the SRM150. Attach the Boom Extender (also included) to the top of the SRM150 and use a microphone boom to hold your microphone.*

*Connect the microphone and an instrument to the SRM150 (Channels 1 and 2), and a playback device like an MP3 player to Channel 3.*

## SRM150: PRACTICE SETUP USING MIC STAND AND BOOM

*Here the SRM150 is used as a personal monitor and the SRM450 is the main PA speaker.*

## SRM150: SMALL CLUB SETUP WITH SRM450

*Two SRM150s are used as floor monitors to provide a stereo monitor mix for the keyboard player.*

## TWO SRM150s: STEREO MONITORING

## SRM150: A/V CART
